

THE UNIVERSITY OF CHICAGO

SCHOOL OF SOCIAL SERVICE ADMINISTRATION

Field Placement Programs

SSA has relationships with over 600 agencies and programs throughout the Chicago area. Over 400 students were placed in these programs during the last academic year and they worked in the field for an estimated 225,000 hours. Students are guided by practitioners who teach them the best practices while providing services to these communities. Please note that agencies may have multiple programs in several different communities and that there are often multiple students working at a particular site.
